

**A RESOLUTION REQUESTING
COMPREHENSIVE ROAD AND TRANSIT FUNDING**

WHEREAS, all Minnesota communities benefit from a sound, efficient, and adequately funded transportation system that offers diverse modes of travel; and

WHEREAS, the integrity of Minnesota's transportation infrastructure is dependent upon long-term planning and ongoing maintenance, both of which require dedicated and sustainable revenue sources; and

WHEREAS, current funding for roads, bridges, and transit systems across all government levels in Minnesota is inadequate, and this under-investment diminishes quality of life for Minnesota residents and hinders Minnesota's progress as a national business, economic, and civic leader; and

WHEREAS, Minnesota's transportation system is failing to meet the capacity needs necessary to sustain population growth and promote economic development; and

WHEREAS, many rural roads are not built to modern safety standards and are not meeting the needs of industries that depend on the ability to transport heavy loads; and

WHEREAS, insufficient state funding has delayed regionally significant road construction and reconstruction projects across Minnesota; and

WHEREAS, transportation infrastructure maintenance and improvement costs significantly contribute to rising property taxes; and

WHEREAS, for every one dollar spent on maintenance, a road authority—and therefore taxpayers—save seven dollars in repairs; and

WHEREAS, Minnesota contains over 141,000 miles of roadway, and over 22,500 miles—or 16 percent—are owned and maintained by Minnesota's 853 cities; and

WHEREAS, almost 85 percent of all municipal streets are not eligible for dedicated Highway User Tax Distribution Fund dollars; and

WHEREAS, the more than 700 Minnesota cities with populations below 5,000 are ineligible for dedicated Highway User Tax Distribution Fund dollars, but have benefitted from the creation of the Small Cities Assistance Account; and

WHEREAS, city streets are a separate but integral piece of the network of roads supporting movement of people and goods; and

WHEREAS, existing funding mechanisms, such as Municipal State Aid (MSA), property taxes, and special assessments, have limited applications, leaving cities under-equipped to address growing needs; and

WHEREAS, city cost participation in state and county highway projects diverts resources from city-owned streets; and

WHEREAS, maintenance costs increase as road systems age, and no city—large or small—is spending enough on roadway capital improvements to maintain a 50-year lifecycle; and

WHEREAS, cities need greater resources, including an additional dedicated state funding source for transportation, and flexible policies to meet growing demands for street improvements and maintenance.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF _____ that this Council requests that the Minnesota Legislature pass and Governor Tim Walz sign a comprehensive and balanced transportation funding package that permanently increases dedicated funding for transportation; and

BE IT FURTHER RESOLVED BY THE COUNCIL OF THE CITY OF _____ that this Council defines a comprehensive and balanced transportation funding package as an initiative that permanently increases dedicated funding for state and local road and transit systems in Greater Minnesota and the Metropolitan Area.

BE IT FURTHER RESOLVED BY THE COUNCIL OF THE CITY OF _____ that this Council requests an omnibus transportation funding bill that provides additional dedicated state funding for city streets, including funding that can be used for non-MSA city street maintenance, construction, and reconstruction.

ADOPTED by the _____ City Council on _____, 2019.
